

About the Electronic Resources

The electronic resources, accessed through your account at www.vernier.com, contain the following:

- 📁 **Chapters and Exercises** – Contains the chapters and exercises for the student activities and projects in this book.
- 📁 **Supplemental Materials**
 - 📁 **LabVIEW VIs** – Contains the .vi files for each of the student activities (both experiments and projects) in this book. These VIs can be used with any version of LabVIEW 2009 and newer. There are two different versions, depending on the interface used:
 - 📁 **LabQuest VIs** – The folder LabQuest VIs contains the VIs for use with any Vernier LabQuest interface and versions of LabVIEW.
 - 📁 **SensorDAQ VIs** – The folder SensorDAQ VIs contains the VIs for use with the Vernier SensorDAQ interface and versions of LabVIEW.

USING THE WORD-PROCESSING FILES

All file names begin with the chapter number, followed by an abbreviation of the title. This provides a way for you to edit the content and activities to match your lab situation, your equipment, or your style of teaching. The files contain all figures, text, and tables in the same format as printed in *Hands-On Introduction to NI LabVIEW with Vernier*.
