

Bio-Rad + Vernier = Science Synergy!

Bringing you the best educational products for biotechnology.

Kits, Instrumentation, Consumables, Data Collection, Analysis, Curricula and more.

Special 10% discount for Vernier customers on Bio-Rad lab kits.

See back for details.

Learn how to integrate hands-on labs, inquiry, data collection equipment, and software into your biology lessons.

Complete solutions from your first choices for data collection and biotech labs and equipment!

If you are looking for ways to enhance and extend your equipment or labs, Vernier's new *Investigating Biology through Inquiry* and *Advanced Biology with Vernier* lab books are aligned with key Biotechnology Explorer kits.

Vernier Lab Manuals

New Investigating Biology through Inquiry

Advanced Biology with Vernier

Bio-Rad Biotechnology Explorer™ Kits

- Biofuel Enzyme Kit
- Comparative Proteomics Kit I: Protein Profiler Module
- Got Protein? Kit

- pGLO™ Bacterial Transformation Kit
- Analysis of Precut Lambda DNA Kit
- Forensic DNA Fingerprinting Kit
- Got Protein? Kit

Bio-Rad Laboratories Special Offer on Biotechnology Explorer Kits

Special offer to purchasers of Vernier's lab books — 10% off all Bio-Rad kits aligned with either *Investigating Biology through Inquiry* or *Advanced Biology with Vernier*. Special offer expires December 31, 2012. Must reference quote number 12-Q10350 to receive promotional pricing.

Kits Aligned with *Investigating Biology through Inquiry*

Catalog #	Description	EDU Price	Promotional Price
166-5035EDU	Biofuel Enzyme Kit Serves 8 student workstations, up to 32 students	\$127.00	\$114.30
166-2700EDU	Comparative Proteomics Kit I: Protein Profiler Module Serves 8 student workstations, up to 32 students. Gels sold separately	165.00	148.50
166-2900EDU	Got Protein? Kit Serves 80 student workstations, up to 320 students	160.00	144.00

Kits Aligned with *Advanced Biology with Vernier*

Catalog #	Description	EDU Price	Promotional Price
166-0003EDU	pGLO™ Bacterial Transformation Kit Serves 8 student workstations or up to 32 students	\$89.00	\$80.10
166-0001EDU	Analysis of Precut Lambda DNA Kit Serves 8 student workstations or up to 32 students	91.00	81.90
166-0007EDU	Forensic DNA Fingerprinting Kit Serves 8 student workstations or up to 32 students	130.00	117.00
166-2900EDU	Got Protein? Kit Serves 80 student workstations, up to 320 students	160.00	144.00

Promotional offer only available to qualified educational institutions. Offer valid for one-time purchase of kits listed above. Multiple kit quantities may be purchased on single order.
